Why buy telecom network equipment from TXO?

TXO Systems has been helping customers increase profits, decrease expenses, and mitigate risk since 2005. Our ability to sell refurbished, used, recycled, discontinued and new products that are in good working condition along with our reputation for integrity, quality, and excellence is what sets us apart from the rest.

Availability

With more than 800,000 telecom network parts in stock, from the latest generations through to legacy and end-of-life, TXO Systems is recognised as a leader in fixed & mobile telecom parts supply. Our inventory includes over 850 OEMs including Nokia, Siemens, Alcatel-Lucent, Marconi, Ericsson, Nortel, Ciena, Juniper, etc. spanning all telecom domains including optical transport (SDH/SONET, DWDM, OTN), routers and switches for core and edge, 2G/3G/4G, servers and storage, and access network and CPE.

Savings

Our telecom network equipment typically costs between 60–90% less than OEM list price depending on the series and manufacturer of the product, as well as the available supply.

Quality

All our telecom network equipment has known provenance and comes backed by the TXO Certified Warranty for your total peace of mind. We work to supply the most reliable, electronically functioning product available – our products are screened and re-packed in new, unbranded ESD packaging, ensuring they reach you in the best possible condition.

Customer Service & Product Knowledge

TXO's team has extensive product and technical experience to quickly understand customers' needs and provide a cost-effective solution.

Rapid Delivery

TXO's large volume stock holding and quick turnaround times mean that we can dispatch same day. When and where possible, we will dispatch orders immediately on receipt of a purchase order.

Sustainable & Responsible Approach

TXO Systems is passionate about the circular economy and is proud to help others take control of their resources. TXO Systems is certified to ISO 9001, ISO 14001:2015, OHSAS 18001, ISO 27001, TL 9000, AATF and WEEE compliant processes, this is all reflected in our CSR process by being a Gold certified EcoVadis company.
